EDUCATION

Mariano Marcos State University
Bachelor of Science in Information
Technology
2023 – present

Mariano Marcos State University
Laboratory High School Batac Campus
With Honors
2017 – 2023

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, PHP
- **Full-Stack:** Laravel, Vue.js, HTML, CSS, Tailwind
- **DB:** MySQL, phpMyAdmin
- **IOT:** ESP32, Raspberry Pi, Arduino
- **Tools:** Git, GitHub, VS Code
- **OS:** Windows, Ubuntu, Kali Linux

SOFT SKILLS

- **Communication:** Technical writing & presentation
- **Collaboration:** Cross-functional teamwork & research
- **Problem-Solving:** Systems thinking & root cause analysis
- **Adaptability:** Self-directed learning across multiple tech domains
- **Leadership:** Project coordination
- **Languages:** English, Filipino & Ilokano

ABOUT ME

BSIT student with a strong interest in emerging technologies, including robotics, cybersecurity, and immersive systems. Experienced in building projects and working in collaborative environments. Interested in exploring technology-driven learning environments and applying technical skills in real-world and research-based settings.

WORK EXPERIENCE

MMSU – Department of Information Technology June 2026

IT Intern

- Developed a coffee bean sorter with physical mechanisms and machine learning through an object detection and classification pipeline
- Gained experience in OpenCV, YOLO, and Python on Raspberry Pi
- Learned 3D modeling and 3D printing using Tinkercad
- Assisted in the planning phase of the development of a smart RFID inventory management system

MMSU – Information Technology Center April 2023

Software Developer Intern

- Learned the basics of Github, Laravel, and MVC architecture
- Developed web components using Laravel and Vue.js
- Collaborated with a team of interns to design and build a system prototype
- Created a functional wireframe of an Internship Management System
- Assisted in structuring backend logic and frontend interaction

PROJECTS

YourTwin:CODE

- An AI-powered coding education platform using digital twin technology to deliver personalized programming instruction, real-time code execution, and adaptive learning through behavioral analytics.

AUTOMATA

- An AI-powered classroom orchestration system that automates the entire classroom session using computer vision, real-time systems, and generative AI.

PMO – Power Monitoring Operator

- An AI-powered residential energy monitoring and protection system built on ESP32. Real-time electrical tracking, automated safety control, and intelligent energy insights with both offline and cloud capabilities.

SEMINARS ATTENDED

TigerTech Conference 2026
Participant
University of Santo Tomas, España, Manila
April 23–April 24, 2026

4th Digital Transformation
Participant
MMSU Teatro Ilocandia, Batac City, Ilocos Norte
March 26, 2026

CCIS Cyber Siege
Facilitator & Lecturer
MMSU Center for Flexible Learning, Batac City, Ilocos Norte
March 24, 2026

Youth Enlightenment: Student Forum
Speaker (Virtual)
Beijing Normal University, Beijing, China
August 20, 2025

LEADERSHIP

CCIS Honor Society • President
2025–present

Information Technology Society • Assistant Treasurer
2023–2024

MMSU-LHSB Debate Society • Secretary for Communications
2022–2023

Kapisanan ng Inang Wika • President
2021–2022

CERTIFICATIONS

- Introduction to Cybersecurity - Cisco**
February 2026
- Cyber Threat Management - Cisco**
May 2026
- Introduction to Critical Infrastructure Protection - OPSWAT**
June 2026
- Foundations of Cybersecurity - Google**
June 2026
- Play It Safe: Manage Security Risks - Google**
June 2026
- Connect and Protect: Networks and Network Security - Google**
June 2026

AWARDS AND RECOGNITION

- Hack4Gov Regionals Competition** **October 2025**
2nd Place
- 8th Global Competition on Design for Future Education** **July 2025**
Gold Award
